Hi Don,

My wife and I have much appreciated RSD Construction, LLC building experience and collaboration. The project was completed within budget and scheduled timeline. RSD team has set new standards when it comes to delivering customer satisfaction. RSD team availability and flexibility consistently met our detailed requirements throughout the whole process. In the end, the delivered product is a gorgeous design and a robustly well-built Port Orford Cedar fence-deck which exceeds our expectation. We are looking forward to working with RSD Construction, LLC on new projects in the very near future.

Link to the pictures of the new and old deck were sent to you through Google Drive. Please do share the pictures with your team.

Regards,  
Thoi Truong
